

## **Job Description for Harvest Supervisor**

You will be responsible for supervising a team of between 15-36 people; this is a hands on position, working in a truly agriculture environment, in all kinds of weather conditions on crops such as Celery, Iceberg Lettuce, Little Gem Lettuce and Romaine.

These are challenging roles offering individuals the opportunity to supervise a purpose built mobile harvesting and packing unit for salad products.

### **Your main responsibilities are**

- Liaising with the Harvest Manager to ensure daily production requirements are fulfilled.
- On a daily basis - completing work allocations and staff rotas.
- Being the first point of contact for any issues / queries your team members may raise.
- Implementing efficient processes in harvest for your team
- Coaching team members in the best techniques in order to achieve performance targets
- Ensuring products are consistently produced and controlled according to quality standards
- Supporting the training of harvest staff
- Completing all administration associated with salad harvest

### **Desired Knowledge & Experience**

- Supervisory experience in a fast paced food manufacturing environment, ideally Salad Farming
- Success in working to tight deadlines
- Experience in delivering results, managing teams
- Strong decision maker
- Highly motivated, resilient, leads by example
- Customer focused

This would be an ideal opportunity to work within a hi-tech agricultural business and an excellent way to develop your people skills.

Although the role will be offered on a seasonal basis, it also provides the opportunity for further permanent employment if you prove to be ambitious and motivated.

The average working week will be between 55-60 hours per week. A salary range of £500-650 per week depending on targets achieved during the week.

Accommodation can be provided.
